Interoffice Memo

TO: Michael J. Mazurak, P.E., Chief
Bureau of Engineering and Construction, Water Design Section
Department of Public Works

FROM: James A. Markle, P.E., Manager */signed/*
Department of Environmental Protection and Sustainability

DATE: November 9, 2017

SUBJECT: Liberty Road 12-inch Water Main Replacement
J.O. 231-203-0067-0488
Stormwater Management Variance
Gwynns Falls Watershed
EPS Project ID: M170352
Tracking Number: 04-17-2600

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the installation of a replacement 12-inch water main by cut and cover. The existing cover conditions will be re-established once the water main is installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
